

Website Design SIG

Website Design SIG

Melbourne PC Website Design Special Interest Group

Next Meeting:

Date: Sunday the 23rd of April

Time: 2PM - 5PM

Location: Zoom Meet

Zoom Meet Link: <https://us06web.zoom.us/j/84055350258>

Meeting ID: 840 5535 0258

Convenor: Fleur Stephens

We have nothing planned for the April SIG however I have some topics in mind if attendees are interested, (it's most likely we'll skip straight to troubleshooting)

- basic html,
- basic and advanced css
- creating wordpress plugins
- adding html and css to emails
- hosted wordpress
- what happened to blogging - online diaries
- vlogging an adding video to your site

The troubleshooting portion of the web SIG is designed to help Melb PC users troubleshoot any web site problems they are having, so if you need some help with a website or would like to take a look at something particular with an experienced web designer/developer's guidance, come along, because this web SIG is for you!

If you would like to troubleshoot your website in a meeting please remember to have your username and password on hand and ftp address if applicable.
